

## ACTIA: measures against COVID-19

Toulouse, 18 March 2020 at 7 am

Since Monday 16 March 2020, in order to protect its employees in the context of the Covid-19 pandemic and to comply with the measures taken by various governments, ACTIA Group has been implementing the measures best suited to its business activities.

Therefore, the production of circuit boards has been suspended on the industrial site in France. Activities at the two other facilities in Tunisia and the United States are currently maintained and these sites will continue to function depending on how the situation evolves and the measures taken by governments in those countries.

At this stage, the majority of integration sites and design offices abroad are carrying on with their activities while taking the health measures necessary to protect our employees.

In the other countries concerned by special health measures, each subsidiary is adapting its organisation accordingly.

The Group's objective is as far as possible to ensure business continuity while protecting our teams and preparing for the end of this exceptional period.

In France, all activity has been stopped as of 18 March 2020 for a renewable 15 day period. ACTIA intends to reduce its expenses to a minimum during this period and make use of the means made available by the French and foreign governments to support businesses.

Key personnel within the company will continue to work from home in order to ensure the continuity of projects, interfaces with customers and suppliers and the management of the company. The Management Committee is fully mobilised and is in daily contact.

ACTIA plans to restart its activities as soon as conditions allow and will take appropriate measures to respond as effectively as possible to the resumption of demand.

### FORTHCOMING DATES

The SFAF briefing for the 2019 annual results will take place in the form a conference call at the time that has already been confirmed: Wednesday 1 April 2020 at 10 am. The log on information will be sent by email and a recording of the conference will be made available on [www.actia.com](http://www.actia.com).

# PRESS RELEASE

## ABOUT ACTIA

ACTIA Group is a mid-market company (ETI) founded in 1986. It is at once a family and an international business whose head office is located in France. This family aspect guarantees the long-term future of the Group and its independence with an ever present entrepreneurial spirit. ACTIA's business is to design and produce the electronics that control systems in the particularly demanding fields of the automotive industry, rail, aeronautics, the aerospace industry, defence, energy and telecommunications.

The commitments made by ACTIA can be seen in the Group's ambitious contributions to tackling challenges that currently face society: mobility, connectivity, safety and the environment. Control over the design and production of products bearing the ACTIA signature is a true guarantee of quality. All Group employees share this demanding approach to quality in an environment that is fully certified.

### Consolidated key figures

- 2019 turnover: €520.4 million
- Over 3,800 employees around the world, of whom more than 1,000 engineers and technicians working in R&D.
