Of which; Automotive	264.3	213.5	+ 23.8 %
Telecommunications	36.0	33.2	+ 8.4 %

Unaudited figures

ACTIA GROUP has announced turnover of € 300.4 million for 2011, up by 21.7 % as compared to the 2010 financial year. This new record was mainly thanks to very strong growth in the **Automotive Division**.

We should note that the Group recorded an exceptional item of turnover of € 22 million in 2011, which was related to the supply of materials on behalf of one of its customers and had no impact on the results.

Key Figures

Turnover: € 300 million

2.800 people

15 countries

55 % of revenues outside France

ABOUT ACTIA®

A Toulouse based Group with global presence, ACTIA® is specialised in high added value electronic equipment, destined for the vehicle and telecommunications markets.

With a strategy based on innovation, quality and competitiveness, the Group is today a leader in automobile diagnostics and in on-board systems for the niche markets for vehicles with small or medium sized production runs (buses, coaches, HGV's and specialist vehicles...) as well as in hertzian transmission.

As at 31/12/11, ACTIA GROUP employed more than 2,800 people spread across 15 countries, of whom more than 550 in R&D and 55% of its revenues are generated outside France.

Turnover for the 4th quarter 2011 finished up by 15.3 % as compared to an already impressive 4th quarter 2010. This performance was driven by the **Automotive Division** where sales were up by 21.1 % over the period. Turnover in the **Telecommunications Division** dropped by 10.2 % as compared to a 4th quarter 2010 that had benefitted from a 'catch-up' effect following two relatively poor quarters.

For FY 2011, the **Automotive Division**, which now represents 88.0 % of the total business, as opposed to 86.5 % in 2010, recorded sales growth of 23.8 %, driven by the ongoing strong development of production of the new generation of products, which are enjoying considerable commercial success.

The **Telecommunications Division**, which in 2011 represented 12.0 % of the total business, finished the year with turnover of € 36.0 million, up by 8.4 %. This level of sales, which was in line with expectations and therefore reconfirms the outlook resulting from the restructuring plan entered into at end 2010, will be sufficient to ensure the profitability of the business in 2011.

Outside France, the sales of the overseas subsidiaries progressed by 27.2 % in 2011 as opposed to 18.9 % in 2010 and now represent 44.8 % of total turnover as compared to 42.8 % in 2010. Total international turnover (subsidiaries + exports) now stands at € 134.5 million, or 55.0 % of consolidated turnover.

In view of the growth in the business **ACTIA GROUP** expects improved profitability for the second half of 2011.

2012 objective: turnover growth on a like for like basis of between 5 and 8 %

While bearing in mind the global economic situation and assuming no further deterioration of the current environment, the Group has set a sales growth target of between 5 and 8 % on the basis of the restated 2011 turnover figure of € 278.5 million.
