The Telecommunications division, that normally does the bulk of its business in the second half of the year, recorded turnover of € 5.9 million in the first quarter 2009, equivalent to a 15.5 % or € 1.1 million decline in comparison to the first quarter 2008, a decline that was noted in all segments.

Outlook

Against the backdrop of an exceptional economic crisis, **ACTIA Group** is placing even greater emphasis on its commercial action plans and plans for cost reductions. The diversified nature of its businesses helps to cushion the negative impact of certain markets that are particularly sensitive to the crisis.
