ACTIA[®]

PRESS RELEASE

Turnover growth for Q1 2010: + 9.0 %

About ACTIA GROUP

A Toulouse based Group with global presence, ACTIA is specialised in high added value electronic equipment, destined for the vehicle and telecommunications markets.

With a strategy based on innovation, quality and competitiveness, the Group is today a leader in automobile diagnostics and in on-board systems for the niche markets for vehicles with small or medium sized production runs (buses, coaches, HGV's and specialist vehicles...) as well as in hertzian transmission.

As at 31/12/09, ACTIA GROUP employed almost 2,500 people spread across 15 countries, of which more than 520 in R&D. Nearly 50 % of its revenues are generated outside France.

Consolidated turnover in €millions	2010	2009	Var.
1 st quarter	57.1	52.4	+ 9.0 %
Of which; Automotive	50.2	46.5	+ 8.0 %
Telecommunications	6.9	5.9	+ 17.5 %

Unaudited figures

For the 1st quarter 2010 **ACTIA GROUP** has announced turnover of €57.1 million, up by 9.0 %. International sales have grown by 12.7 %, largely driven by the Americas (+74.2 %). Sales in France also increased by 6.1 %.

Both business divisions in the Group have contributed to the upturn:

Growth in the Automotive Division, thanks to the commercial success of the new product lines, confirms that the Group's strategy of innovation is well suited to markets that remain fragile.

The Telecommunications Division, which normally does most of its business in the second half, has recorded substantial sales growth (+ 17.5 %), partly due to certain deliveries that had been planned for end 2009 falling into early 2010. Excluding this factor, growth would have come in at 3.9 % when compared to the 1st quarter 2009. There is, however, still rather limited visibility in some markets.

Outlook maintained

Against the background of a fragile recovery, **ACTIA GROUP** has reconfirmed its growth objective of between 6 and 8 % for 2010, accompanied by a return to profit.
