About ACTIA GROUP

A Toulouse based group with global presence, ACTIA is specialised in high added value electronic equipment, destined for the vehicle and telecommunications markets.

With a strategy based on innovation, quality and competitiveness, the Group is today a leader in automobile diagnostics and in on-board systems for the niche markets for vehicles with small or medium sized production runs (buses, coaches, HGV's, specialist vehicles...) as well as in hertzian transmission.

As at 31/12/09, ACTIA GROUP employed nearly 2,500 people across 15 countries, of whom more than 520 in R&D. Almost 50 % of its revenues are generated outside France.

Unaudited figures

Since the beginning of the 2010 financial year **ACTIA GROUP** has enjoyed another quarter of growth for the business as compared to 2009, a year that was particularly badly affected by the economic crisis.

The final result for turnover in the second quarter 2010 was € 60.9 million, up by 14.7 %, bringing the full turnover for the half year to € 118.0 million and representing growth of 11.9 %.

This performance was mainly driven by the **Automotive** division, which represented 87.7% of the Group's overall business, and more specifically by the international business, which is firmly back on track.

With revenues of € 53.3 million, **the Automotive division** enjoyed strong growth (+17.7%) in the second quarter 2010 with the number of orders placed returning to a more normal level for all sectors of the business.

Turnover for the **Telecommunications division** in the second quarter reached € 7.6 million, representing a decrease of 2.5 % due to delays caused by the late acceptance of the first ground station from the Syracuse contract, which situation has today been resolved.

Nevertheless, for the full half year, the division maintained growth of 6.1 %, driven by a dynamic first quarter (+ 17.5 %). The Group draws attention to the seasonal nature of this business for which the majority of sales are made in the second half.

Outlook

Despite the temporary downturn in the **Telecommunications** business in the second quarter with the attendant impact on the half year results, the Group, in view of the renewed vigour in the **Automotive** business, maintains its growth objective for the business in 2010 at between 6 and 8 %, with a return to profit by the year end.

The **ACTIA GROUP** 2009 Registration document is available on the www.actiagroup.com site.
